

Dr. Definity, Hi!

Once again you <sup>CAME</sup> thru!  
After leaving your office,  
we went straight to UGM  
Emergency Room, where I  
was admitted. I was  
there from the time I left  
you until this past  
Saturday, Sept. 1, 2007.  
I had several test &  
was constantly given  
antibiotics intravenously.  
The diagnosis was an  
"infection." I left with  
a prescription for several  
days of oral antibiotics.  
You have saved my life  
once again!!! I can never  
say Thank You enough!  
Love, Tonia Whinton

Love,
