For twenty five years, Michigan Foot and Ankle, under the direction of Dr. Harvey Lefkowitz, has been providing their patients with outstanding patient care in podiatric medicine that is unparalleled. From minor foot care issues, such as ingrown toenails, to more serious conditions, such as plantar fasciitis, bunions and ankle fractures, Michigan Foot and Ankle offers complete diagnostic and treatment plans to restore and maintain the health of your feet.

Dr. Lefkowitz specializes in reconstructive foot and ankle surgery, and offers expert medical diagnosis and treatment options for all pain associated with the feet and ankles. Together with his associates, Dr. Michelle Jupin and Dr. Anthony Giordano, they are highly regarded in their profession for their expertise, knowledge and skill, and for providing their patients with the best care possible.

Using state-of-the-art diagnostic equipment, such as digital x-rays and ultrasound, Michigan Foot and Ankle uses the most up to date technological advances to diagnose and treat disorders of the feet and ankles. They are better able to make sound and well informed decisions regarding treatments that produce more predictable and

beneficial results for their patients.

Education is paramount at Michigan Foot and Ankle, and Dr. Lefkowitz and his staff work diligently to ensure that every patient receives information regarding the care of their feet, from treatment options to home care. Their website, at [www.michiganfootandankle.com](http://www.michiganfootandankle.com),

provides links to various websites, such as the American College of Foot and Ankle Surgeons, that offer a wealth of educational information.

Drs. Lefkowitz, Jupin and Giordano treat patients of all ages, from infants to seniors, and address all major and minor issues, from diabetes to the proper fitting of shoes. Their office is located at **641 West Nine Mile Road in Ferndale**. For your convenience,
